Witcher 3 update 1.31

The witcher 3 wild hunt update 1.31.

[The only changes in 1.32 is a chinese translation. The patch contains only official 1.31 and 1.31 GOG GOTY scripts and only official fixes which are available to GOTY users. "ÅzÅzÅz" Repairs holes in Vimme Vivaldi "ÅzÅzÅz"Ås new clothes. Unhide I may sound oldschool, but i want to have a physical copy of a game, if possible, and all the patches..., ready to use on a harddrive! So, i canÅ Åt find the 1.31 patch for the Goty Edition on the internet. "ÅzÅzÅz" (Origin) Fixes NPC lipsync issues. View Screenshot Please Login or Sign Up to post a comment Yesterday, The Witcher 3 received a brand new update which introduced Simplified Chinese Language support. The Witcher 3 is now available on PC, PlayStation 4 and Xbox One in all regions. If you have non-GOTY version of the game, installing the patch will make your game almost identical to GOG GOTY. Moon and Corvah recently shared on Nexus Mods the 1.32 to 1.31 patch, which re-enables mods and the debug console. This patch also only works for the Steam version, as the GOG release has yet to be updated. The patch contains only official 1.31 and 1.31 GOG GOTY scripts and only official fixes which are available to GOTY users. Please, try again later. You can't chat with this user due to their or your privacy settings. You can't chat with this user because you have blocked him. The latest entry in The Witcher series is Thronebreaker: The Witcher Tales. Then i realized i canÅ Åt get the 1.31 patch as a standalone download. "ÅzÅzÅz" Fixes long loading times in dialogues in the vicinity of Hierarch Square. But in the end i got this . The Backup-Copy just works . If you already have GOG GOTY version of the game, this patch will ensure your game is backwards compatible with non-GOTY while still keeping all GOTY changes and fixes. The game is not a follow-up to The Witcher 3, as its sets during the novels. "ÅzÅzÅz" Corrects credits. That way you can update the game. Unless you want to play the game in chinese back to 1.31 will do nothing for gameplay.] This mod removes and replaces all the changes made in the 1.32 update that came out today (2018/11/06) for those people who have had issues with it or want to use the debug console with 1.32. Post automatically merged: Dec 10, 2018 Last edited: Dec 10, 2018 As far as I know there should be a GOG Key coming with the box. You can't invite this user because you have blocked him. "ÅzÅzÅz" Fixes infinite loading screen occurring during the "ÅzÅzÅz"Pyres of Novigrad "ÅzÅzÅz"Å quest when following the thief. Tested and working on both the GOTY and non-GOTY edition of the game. "ÅzÅzÅz" Corrects Turkish text. After installing the rollback patch, mods that modify files in The Witcher 3 bin/config have to be re-installed.
