Titer test near me

152 Harley Street brings together a wide ranging and complementary level of world-renowned specialist doctors and healthcare professionals. Our medical professionals have devoted their careers to specialising within their field of expertise. This enables us to offer each patient a complete service at 152 Harley Street, putting the patient at the centre of what we do: Delivering the right treatment, at the right time with the best outcomes for our patients. We deliver a patient-centred model providing innovative modern treatments and practices to meet the demands of the patient. Focused on best patient outcomes, minimal downtime and meeting the needs of patients ensures each individual treatment schedule fits conveniently around patients demanding and busy lives. We continue to make 152 Harley Street the best place for patients, clinicians, and our employees whilst enhancing and supporting well-being for our patients and our staff. READ MORE We operate with the utmost integrity and provide you with only the very best expert advice and support from some of the most world renowned, experienced and skilled consultants and clinicians. Our team of talented and qualified clinicians are all highly regarded in their field and have international reputations. We are specialists in the latest and most innovative procedures and treatments spanning plastic, reconstructive and cosmetic surgery, dermatology, including Mohs Micrographic Surgery, dental & oral surgery, hair transplant surgery, maxillofacial surgery, non-surgical aesthetic and laser treatments including the sought after PicoSure and UltraPulse Co2 lasers. A CQC registered facility committed to delivering excellence as standard. Safety and quality is our priority, we continually strive to enhance and improve the quality of care for our patients. Conveniently placed in the heart of London's most highly regarded medical district, 152 Harley Street is a centre of medical excellence and one of only a few day case surgery facilities in the UK who offer surgical procedures under local anaesthetic and sedation. This means that our patients are able to leave shortly after their procedure, but still receive the same thorough and excellent aftercare that they would expect with a general anaesthetic. Longer procedures that require general anaesthetic and overnight treatment take place in one of our recommended central London hospitals. "I want to say a sincere and heartfelt thank you to you for the care and attention you gave me during my recent procedure. I am most grateful to you, not only for your skill and expertise, but also for your understanding approach and calm reassurance, which made a huge difference to me. I shall also be grateful if you will pass on my thanks to the nursing team at 152 Harley Street for the excellent care they took, which was not only professional but at all times caring, gentle and thoughtful. Throughout I know I was in the hands of an outstanding team. Many thanks again." "Yay! The counselling was brilliant, the results of surgery are brilliant, and I am thrilled! Double win." "If there were 10 stars I would give Daniel Ezra and his team 10! I am blown away by their attention to detail, honesty, professionalism and knowledge. Having just had an upper bleph only a week on from the operation I can already see brilliant results. Karen his PA went above and beyond to fit me in for surgery, nurse Jo was very supportive post surgery and no question was too small or big she was exceptional. It was so important to me to go to the best for my eyes and Daniel and his whole team are at the top of their field for good reason - quite simply they are the best in the business."
